Description of first aid measures

General advice If exposed or concerned: Get medical attention/advice. Specific treatment (see supplemental instructions on the administration of antidotes on this label).

Eyes IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation or rash occurs: Get medical advice/attention.

Ingestion Rinse mouth with water and consult a physician.

Inhalation IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

Most important symptoms and effects, both acute and delayed See Section 2.

Most Important Symptoms/Effects See above

Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media

Suitable Extinguishing Media

Water. Water spray. Carbon dioxide (CO₂). Dry powder. Foam.

Extinguishing media which must not be used for safety reasons

Do not use as a solid water stream as it may scatter and spread fire

Special hazards arising from the substance or mixture

Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases

Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke)

Advice for firefighters

Special protective equipment for fire-fighters

Wear self-contained breathing apparatus and protective suit

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid contact with the skin and the eyes. See Section 12 for additional information.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Methods and material for containment and cleaning up

Collect spillage.

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13)

Reference to other sections

See Sections 8 and 13 for additional information.

SECTION 7. HANDLING AND STORAGE

Precautions for Safe Handling

Handling

Wear personal protective equipment.

Use only in areas provided with appropriate exhaust ventilation.

To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded.

Keep away from heat, sparks and open flame. –

No smoking.

Do not breathe vapors or spray mist.

Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors).

Use product only in closed system.

General Hygiene Considerations

Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place
